On the unchecked power of Amazon in today's economy and society

Officials from the European Commission, Members of the European Parliament, Competition and privacy experts and regulators, Union leaders, Scholars, Small business representatives and NGOs will look at how Amazon impacts today's economy and society.

Facing increased scrutiny from governments, regulators and civil society, the unprecedented concentration of global platforms such as Amazon poses a real threat to democracy. This symposium will offer a unique opportunity to bring together leading advocates from the USA and Europe working for a just workplace, a diverse marketplace, a fair tax system, digital rights and climate justice.
